Subject: Mtg. Outreach Summary

By the end of the week, EPA Region 9 Community Involvement will have presented at Five Meetings in Five Days

In coordination with Navajo Incident Command, EPA has presented and participated in three public meetings held at chapters across Navajo Nation. From 8/10-8/12, EPA has given presentations at the:

- Shiprock Chapter in Shiprock, N.M. (northeast Navajo Nation);
- Aneth Chapter in Aneth, UT in north central Navajo Nation; and
- Oljeto Chapter in Monument Valley, UT in northwestern Navajo Nation.

All three chapters were located near the San Juan River and were impacted by the release. At these meetings, EPA provided status updates on response activities to date, latest release characterization and location, and next steps for responding.

In addition, on Friday, 8/12, EPA will return to Aneth Chapter and Oljeto Chapter to provide an update on response activities and next steps.
